

## # Candidates and Scores List

**\*\*DISCLAIMER:** All names, addresses, and data in this document are completely fictional and AI generated for testing purposes only. Any resemblance to real persons, living or dead, or actual places is purely coincidental.\*\*

### ### Usage Notes

This dataset is designed for testing AI Agent RAG (Retrieval-Augmented Generation) systems and can be used to evaluate:

- Information retrieval accuracy
- Question-answering capabilities
- Data filtering and sorting
- Geographic-based queries
- Score-based ranking and comparisons

\*This document contains synthetic data for educational and testing purposes only.\*
